

# Modular 3-phase control relay, 8 A, 2 CO, 380...480 V AC

RM22TR33

## Main

| Range of product              | Harmony Control Relays                                                            |
|-------------------------------|-----------------------------------------------------------------------------------|
| Product or component type     | 3-phase control relay                                                             |
| Relay type                    | Control relay                                                                     |
| Network number of phases      | 3 phases                                                                          |
| Relay name                    | RM22TR                                                                            |
| Relay monitored parameters    | Overvoltage and undervoltage detection Phase sequence Phase failure detection     |
| Time delay type               | Adjustable 0.130 s, +/- 10 % of the full scale value on crossing the threshold Tt |
| Switching capacity in VA      | 2000 VA                                                                           |
| Measurement range             | 380480 V voltage AC                                                               |
| Contacts type and composition | 2 C/O                                                                             |

## Complementary

| Complementary                               |                                                                                                                      |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Reset time                                  | 1500 ms at maximum voltage                                                                                           |
| Maximum switching voltage                   | 250 V AC                                                                                                             |
| Minimum switching current                   | 10 mA at 5 V DC                                                                                                      |
| Maximum switching current                   | 8 A AC                                                                                                               |
| [Us] rated supply voltage                   | 380480 V AC                                                                                                          |
| Supply voltage limits                       | 304576 V AC                                                                                                          |
| Operating limits                            | - 20 % + 20 % Un                                                                                                     |
| Power consumption in VA                     | 15 VA at 480 V AC 60 Hz                                                                                              |
| Voltage detection threshold                 | < 100 V AC                                                                                                           |
| Supply voltage frequency                    | 5060 Hz +/- 10 %                                                                                                     |
| Output contacts                             | 2 C/O                                                                                                                |
| Nominal output current                      | 8 A                                                                                                                  |
| Setting accuracy of the switching threshold | +/- 10 % of the full scale                                                                                           |
| Switching threshold drift                   | <= 0.05 % per degree centigrade depending permissible ambient air temperature <= 1 % within the supply voltage range |
| Setting accuracy of time delay              | 10 P                                                                                                                 |

| Time delay drift              | <= 0.05 % per degree centigrade depending permissible ambient air temperature <= 1 % within the supply voltage range                                                                                                                                                                                        |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hysteresis                    | 2 % fixed of selectable                                                                                                                                                                                                                                                                                     |
| Run-up delay at power-up      | 650 ms                                                                                                                                                                                                                                                                                                      |
| Maximum measuring cycle       | 150 ms measurement cycle as true rms value                                                                                                                                                                                                                                                                  |
| Threshold adjustment voltage  | 220 % of Un selected                                                                                                                                                                                                                                                                                        |
| Voltage range                 | 380480 V phase to phase                                                                                                                                                                                                                                                                                     |
| Repeat accuracy               | +/- 0.5 % for input and measurement circuit<br>+/- 3 % for time delay                                                                                                                                                                                                                                       |
| Measurement error             | < 1 % over the whole range with voltage variation < 0.05 %/°C with temperature variation                                                                                                                                                                                                                    |
| Response time                 | <= 300 ms                                                                                                                                                                                                                                                                                                   |
| Overvoltage category          | III conforming to IEC 60664-1 III conforming to UL 508                                                                                                                                                                                                                                                      |
| Insulation resistance         | > 100 MOhm at 500 V DC conforming to IEC 60255-27                                                                                                                                                                                                                                                           |
| Mounting position             | Any position                                                                                                                                                                                                                                                                                                |
| Connections - terminals       | Screw terminals, 2 x 0.52 x 2.5 mm² (AWG 20AWG 14) solid without cable end Screw terminals, 2 x 0.22 x 1.5 mm² (AWG 24AWG 16) flexible with cable end Screw terminals, 1 x 0.51 x 3.3 mm² (AWG 20AWG 12) solid without cable end Screw terminals, 1 x 0.21 x 2.5 mm² (AWG 24AWG 14) flexible with cable end |
| Tightening torque             | 0.61 N.m conforming to IEC 60947-1                                                                                                                                                                                                                                                                          |
| Housing material              | Self-extinguishing plastic                                                                                                                                                                                                                                                                                  |
| Status LED                    | LED (yellow) relay ON<br>LED (green) power ON                                                                                                                                                                                                                                                               |
| Mounting support              | 35 mm DIN rail conforming to EN/IEC 60715                                                                                                                                                                                                                                                                   |
| Electrical durability         | 100000 cycles                                                                                                                                                                                                                                                                                               |

Connections and Schema

## 3-Phase Voltage Control Relay

## Wiring Diagram

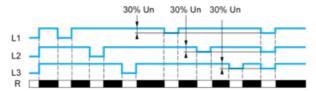

L1,L2,L3 : Supply to be monitored

11-14,12: 1st C/O contact of output relay 21-24,22: 2nd C/O contact of output relay

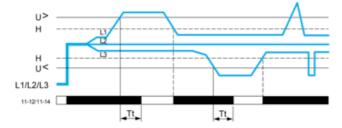

**Technical Description** 

## **Function Diagrams**

## Phase Failure Detection (U measured < 0.7 x nominal supply voltage)

### Control of Overvoltage and Undervoltage

### Legend

Un Nominal supply voltage

R Output relay

Tt Overvoltage and undervoltage threshold delay (adjustable on front panel from 0.3 to 30 s)

**H** Hysteresis

U> Overvoltage threshold

U< Undervoltage threshold

L1, L2, L3 Phases of the supply voltage monitored

11-12, 11-14 R1 output relay connections

Relay status: black color = energized.

## Recommended replacement(s)
